The Fairfield Arms is a fine building which dates back to 1881, built by a local Cotton Mill owner to show off his success and wealth to everyone in the area. Set back in its own extensive gardens and car parking areas it's a fantastic place to eat and drink.

The Fairfield Arms is perfect for any funeral function where Buffets are also available. Our function room holds up to 90 people and still has its original kitchen fireplace and washer boiler fire area. The reception area leads into the function room, which then leads out onto the patio/garden seating area.
